3. I am informed and believe that the '562 Application and the '117 Patent are both currently owned by the same party, RIC Investments, Inc.

4. The inventorship of the claims of the '562 Application is correct in that the claims are directed to subject matter that was derived by me, and not from any other individual who has been named as an inventor in '117 Patent. As the inventions recited in the claims of the '562 Application, but not claimed in the '117 Patent, were derived by and may be attributed to me, they are not inventions "by another."

5. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated this 28 day of April, 2006.

Peter Ho
